

# **EARTH SCIENCE AROUND STANFORD FIELD TRIP**

Where is the San Andreas fault anyway?  
Why is the San Francisco Bay there?  
What are our local environmental issues?  
Where does our water come from?

*Answers to all these questions and more!*

Have a fun day outside, check out the mountains and beach, and learn some important things about where you live, past and present!

**SATURDAY, MARCH 3  
10AM-6PM  
FREE AND OPEN TO ANYONE**

Transportation provided!
